AS950 MOLTEN: Tough and robust metal-free welding safety boot from Amblers Safety. Crafted with a water and fire resistant zug grain leather upper using flame resistant stitching. Easy on and off with inner elastic panel, rear pull loop and quick-release Velcro® protective over flap. Deep padded 360 degree PU collar provides comfort. 200J impact and compression resistant FIBRE GLASS composite toe cap and anti-penetration flexible composite midsole. 100% non-metallic construction. Breathable moisture wicking mesh lining and comfortable, long lasting cushioned PU footbed. Extremely durable, heat and slip-resistant **DDR (DUAL DENSITY RUBBER)** outsole with energy absorbing heel

Upper	Flame Retardant Full Grain Leather	Construction	Injection
Inner Lining	Breathable Moisture Wicking Mesh	Outsole	Dual Density Rubber (DDR)
Footbed	Removable PU Foam	Weight	950 grams (half pair UK size 8)
Impact Resistance	200 Joules Fibre Glass Composite Toe Cap	Penetration Resistance	Anti-Penetration Flexible Composite Midsole - Min. 1100N

FEATURES

- ◆ Tough and Robust Welding Safety Boot
- ◆ Water and Fire Resistant Full Grain Leather Upper
- ◆ Flame Resistant Stitching
- ◆ Padded Collar
- ◆ 100% Non-Metallic
- ◆ Quick Release Velcro® Protective Over Flap
- ◆ Non-Clogging Slip Resistant DDR Outsole
- ◆ Outsole Heat Resistant to 300 Degrees
- ◆ Oil Resistant Outsole
- ◆ Antistatic
- ◆ Energy Absorbent Heel

Care Advice: To enhance the life & performance of the footwear, upper should be kept clean & dry. Dry/damp cloth or shoe polish/spray to be used as per the need. Sole to be checked and clean regularly to maintain its traction. Any obvious damage in footwear may reduce full protection and must be replaced.
